

Dear Dr. Henney,

I am writing to express my opposition to FDA's proposed new rule and guidance on genetically engineered (GE) foods. We oppose the agency's voluntary labeling and notification proposals in support of all the points in the citizen's petition currently before the agency (docket #00P-1211/CP1).

- ☐ All GE foods should be labeled so I am informed and have a choice.
- ☐ GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- ☐ There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.

(Additional Personal Comments:) 1. Why are GE foods opposed so strongly in Europe & not the U.S.? I thought we were a "leading-edge" model country?
2. As a breastfeeding mother to my baby boy, I'd like to know what I'm eating.
